Don-----fought you'd find this interesting----- the other day I went into Dick's sporting goods in the Wilton mall, Saratoga to purchase some .45 ACP ammo. They would NOT sell it to me without me showing them my pistol permit. This is not a nys law! This is obviously store policy. I do not believe stores or any other place that sells guns & ammo should be allowed to implement their own gun control laws! That's just what this is-----a " back door" attempt at gun control. That's all we need is MORE regulation by a 3rd party! I think they should be boycotted by sportsmen for this kind of move!-----Jeff
