**Subject:** Crown Point Fish Hatchery

**Hi all Sports & Fish&Game Clubs:**

**Just a note that due to my computer major malfunction there was no Essex Co. F&G League newsletter for the month of October.**

**The monthly League meeting was held last evening at the Schroon Lake F&G clubhouse where a delicious turkey supper was served with all the trimmings. A resolution was passed supporting the Crown Point fish hatchery. The much larger trout stocked by the CP facility produce much more income to Essex Co. than to the 10" long or less trout that the DEC stock in the Adks.**

**Anglers come from far and wide including Europe to fish the large trout that are stocked in the Ausable River which is a catch and release stream. Most of the 10 inch long trout will not survive the "catch and release". - Incidentally, a pile of money is spent in Essex Co. during their stay.**

**It is urged that the Essex Co. F&G clubs contact their town supervisors so they will somehow keep the Crown Point hatchery operating. Thanks.**

**Dick Johndrow - Essex Co. League Sec'y**
