Subject: Moose River Plains Draft UMP - Action Alert

Hello All,

It's time for ACTION before DEC re-classifies 15,000 acres of the Moose River Plains Wild Forest as Wilderness and adds it to the West Canada Lake Wilderness Area.

This would close miles of roads & trails and is yet another incremental step toward taking away one of Inlet's most valuable assets - the Moose River RECREATION Area.

In general this draft UMP is a good, workable plan but there are several points for which we must voice opposition. Please review this critique (attached & below) and forward this to as many concerned citizens as possible. This information is also posted at www.AdirondackCitizen.com

It is IMPERATIVE that you send your concerns to APA & DEC so that this Wilderness grab is stripped from the final draft UMP. The comment period is currently set to close August 30th.
